

Phoenix Surgery – GP Earnings Report

All GP practices are required to declare the mean net earnings (e.g. Average pay) for GPs working to deliver NHS services to patients at each practice. This is required in the interests of the greater public accountability recognising GP pay is ultimately funded from tax paid by the public.

The average pay for GPs working at Phoenix Surgery in the last financial year was £55,964 before tax and national insurance. This is for 5 full time GPs, 3 part time GPs and 1 locum GP (who worked in the practice for more than 6 months).

Total Number of GPs	9
Mean net earnings	£55,964
Total number of full time GPs	5
Total number of part time GPs	3
Total number of locums employed for more than 6 months	1
